It comes with 80 LEGO TECHNIC pieces like special gears and levers, plus building tips on how to build a rubber band racer, spinning tops, a balloon-powered rocket car, an automatic field goal kicker, a ping pong popper, a candy machine and more! Five of the projects use only the pieces included with the book and for the other five, you need to add other basic LEGO bricks found easily in your own LEGO collection. Ages 7+. 68 pages.

#B100 Crazy Action Contraptions \$18.75

Complete layout of all 6 mats

Connect them any way you want—roads and water always match up!

**Six oversized pieces build a 3' x 6' Play Area**

## F. Build your own town with 6 oversized play mats!

Large 18" x 24" foam-backed pieces connect easily and stay connected so you can add buildings or drive LEGO vehicles around the town. Streets, lakes and familiar buildings like fire stations and the police headquarters are printed directly on the play mats, plus you can add your own buildings, trees, boats and lots of LEGO characters to make the town even more real! Includes six 18" x 24" play mat pieces. Plus, mats come in a carrying case with handle. Ages 5+.

#M330 Build Your Own Play Mat \$39.75

## H. Build your own awesome LEGO watch!

First, choose your colors, now build your band! Next dress up the dial with decorative snap-on rings. With LEGO watches you don't just tell time, you build it—yourself! Each watch includes child-size bands, plus lots of links to create a watch band that will fit almost anyone. Ages 5 and up.

# BUILD AND PROGRAM YOUR OWN LEGO ROBOT

THE CLOCK

INTRUDER ALARM

PHOTOROBOT

(Sensor contains sold separately)

## A. Enter a world where you make the rules!

Because step-by-step instructions are not included, you're free to build whatever you want, however you want. The key to this awesome invention system is the LEGO RCX, a programmable microcomputer that acts as the brain of your robotic inventions. PC, monitor, one 9-volt battery and six AA batteries required, but not included. Ages 10+.

#8718 Robotic Invention System \$219.99

Minimum System Requirements: Windows® Platform: 386/486 with 300K RAM, 50MB hard disk space, available 9-pin serial port for infrared transmitter. Serial: Windows 3.11+, 4X CD-ROM, VGA, plus 56K EASY modem and Internet browser optional.

## HOW IT WORKS!

### 1. BRAINSTORM

Get your mind in gear using the Interactive Building Machine and Challenge on the CD-ROM software. LEGO ROBOTICS® website and most importantly, your imagination.

### 2. BUILD

Bring your ideas to life by attaching sensors, motors and gears to your RCX.

### 3. PROGRAM

Use your PC and the LEGO MINDSTORMS CD-ROM software to create a program that lets your invention think and act on its own.

### 4. DOWN LOAD

With the click of a mouse, instantly download your program from your PC to your RCX using the infrared transmitter. (Requires a 9-pin serial port on your PC.)

### 5. ACTIVATE

Your robotic invention is ready for action. Let it loose and watch it take on a life of its own!

## INFRARED COMMUNICATIONS PORT

Lets your RCX talk with your PC or other RCX units.

## LIGHT SENSOR

## TOUCH SENSOR

## TOUCH SENSOR

## LCD DISPLAY PANEL

## HIGH-EFFICIENCY MOTORS

The RCX is a programmable microcomputer that acts as the brain of your robotic inventions.

Using your PC and the RCX you can control the behavior of an infinite number of robotic inventions - from a light-sensitive intruder alarm to an undercover robot that can follow a trail, move around obstacles, even duck in dark corners.

## Set Includes:

- RCX Microcomputer
- CD-ROM Software
- 737 pieces, including:
  - 1 Motors
  - 2 Touch Sensors
  - 1 Light Sensor
  - Coaxialchips
  - 12 Guided Challenges
  - Infrared Transmitter

Includes an extra motor, CD-ROM software with 12 guided challenges and building tips in the constructopedia. Ages 12+, 90 pieces. #9730 RoboSports Expansion Set \$34.00

Come with CD & instruction booklet

Includes extra mini-motor!

## Build these Accessories into Your Robotic Inventions for Even More Action!

### D. An extra RCX means even more power!

Add an extra RCX to put even more power into your robotic inventions. Or build two robots and program them to communicate with one another. Requires 6AA batteries - not included. Ages 12+, 1 piece. #9709 RCX Programmable Brick \$139.00

### E. You've got control!

Control your robotic inventions with the new LEGO MINDSTORMS Remote. Just aim the remote at the RCX to communicate with your robot through our Infrared Series - it works just like a TV remote. Requires 2AA batteries - not included. 1 piece. #9798 Remote Control \$19.75

### F. Teach your robot to react to changes in light.

Add a light sensor - then create a program to sound an alarm when light enters the room. Or use your imagination to come up with other ways to incorporate the light sensor into your creations. Ages 12+, 1 piece. #9739 Light Sensor \$19.75

### G. Create robots that can measure distance!

Build a position sensor into your robot as you can keep track of mile rotations. You can measure the length of your room, or program your robot to drive forward exactly 10 feet. Ages 12+, 1 piece. #9756 Rotation Sensor \$16.50

### H. Give your robots the sense of touch.

Now you can program your robot to turn around before it reaches the edge of a table or when it bumps into things. Ages 12+, 2 pieces. #9757 Touch Sensor \$11.00

### I. Make your robotic creation feel heat!

Add a temperature sensor to your robot - then program your robot to react to temperature changes. Ages 12+, 1 piece. #9755 Temperature Sensor \$14.00

R2-D2

Battle Droid™ on STAP

Program your droids with the Micro Scout™

## Build and program your own droids!

Combine the power of the Force with your imagination to create classic droids from the Star Wars Episode I movie. Start your Jedi training as an apprentice. Build and program R2-D2 and L-3GO droids using step-by-step building instructions and guided help from the CD-ROM. Next, move on to Jedi Knight challenges. Create nine snap-on assemblies with the step-by-step instructions on the CD-ROM, then use the building tips to construct even more complex droids. Now you're ready to become a Jedi Master and let the Force guide your creations. We give you partial building instructions for master level droids like a battle droid and a Gungan sub, but then you're on your own. Includes the Micro Scout - the smallest LEGO microcomputer - with a built-in light sensor, motor and seven built-in programs (requires 3AA batteries - not included). Each droid can be built separately using the same pieces. PC required for CD-ROM building instructions. All programming is done on the Micro Scout. Ages 9+. 623 pieces.

MINDSTORMS Droid Developer Kit \$109.00
